THE equinoctial senson has been productive of the most destructive storms, both upon land and see, known for years. The public prints inland are filled with accounts of friphtful losses of life and property from cyclones and hurricanes, and the seaboard journals take up the sad refrain, and tell of cores of human beings and stout vessels beng buried in the bosom of the ocean. The movement is very slow, because the gods grind so s'owly and so exceeding small. But comparing centuries with centuries we obtain Observations that demonstrate the progress and make it seem worth while to live; while the immense advance in mental and mechanical attainment of itself im', lies a healthy direction in sani-

The scavengering work that was so well done then will always be deno in this country when occasion really demands it; and the moral is: Put forward none but honest, just and good men, entitled to the support of the people, resting their claims on their past lives, rather than on blatant and foul-mouthed abuse of better men than themselves.

The Church Home. EDITORS APPRAL-I wish to call the attention of the public and the charitably distention of the public and the charitably disposed to the urgent wants of the Church Home, and to solicit their aid for the support of that institution during the summer, when so many of our citizens are absent. We have fifty-seven orphans on hand—ten of them babies—and no means visible for their support beyond a few days. A committee of iadies have united upon a plan to replenish the coffers of "The Home," and carry us through the summer months. This is a round sum of money, and as we need it all in Shelby county, I hope it will be wisely spent "whore it will do the most good." As the sum is very respectable, is its expenditure not a subject that should be thoroughly matured before action is finally taken? Please give the community your views, and let us have those also of others of our re-ple deeply interested in the question. MURDER.

A Negro Shot and Killed by an Un known Negro Man Who Attempted to Enter His Room on Madison Street.

At half-past eleven o'clock last night, at the residence of Mrs. Mahoney, No. 255 Madison street, a colored man named —
Jack, was shot and killed by an unknown colored man, under the following circumstances: Jack's wife worked as a house servant for Mrs. Mahoney, and Jack being a river man was absent a good deal of his time, during which absence some other netime, during which absence some other ne-gro visited his wife, who had a room back on the porch, in the rear of Mrs. Mahoney's residence. Jack went home last night, and while in his room heard some one rap on his door. He went out with a knife in his hand, and seeing a negro on the porch, ordered him away. A tew words passed and then a shot was fired, the pistol-ball striking Jack is the left breast near the region of the heart. The assassin ran away and escaped in the dark cess, while Jack ran back into the house and called to Mrs. Mahoney. She opened the door of her room and saw that he was bleeding profusely. He told her that he was shot by an unknown negro man, and in a few mo-m-nts fell and expired. His wife left the house shortly afterward, and had not re-turned up to half-past twelve o'clock. The police are searching for her, believing that he knew the murderer of her husband.

Mr. Whittaker, said the recorder, did not exaggerate to such an extent, but he simply wrote, the lobes of his ears were cut. Etts Buiks, wairress at the post, traiffed that the received thit peeces of belt and handkerohief found in Whittaker's room from the hands of an orderly of Colonel Lenelle; the pieces of belt had only a little blood on them, while the handkerchief was covered with blood, no one portion of it having less blood on it than another. This was the first testimony regarding the true condition of the handkerchief when it was taken from Whittaker's room.

William H. Brooks, engineer at the Bonton house, testified that he had no direct evidence as to who did the outrage; he has only a supposition, and he was allowed to say that

matter. At any rate, I attribute the proposed quarantine against oranges and lemons to those crazy theorists. The most absurd part of the whole thing is that the oranges and teminds us that His Friends are Trying to Capture Connecticut. lemons which are now coming into this mar-ket are exclusively from the Mediterranean ports, chiefly Similan, and even if oranges could transport and transmitso-called yellow-fever germs, there is never any yellow-lever HARTFORD, April 27 -A large number of HARTFORD, April 27—A large number of delegates to the Democratic convention, which assembles to merrow, are already in the city. MINNEAPOLIS, April 27.-Dr. J. T. Webb, a well-known citizen of Circinsati, and for two years a resident of this place, died sud-denly this morning, of apoplexy. He was a brother of Mrs. President Hayes and brotherin-law of Hon. Stantey Mathews. He was born in Chillicothe, Onio, in 1827, and received a medical education in the schools and hospitals of Europe. He was for some time superintendent of the Longview asylum, in Onio, but left for this place on account of a malarial disease contracted in hospitals and sick-rooms. His death was very sudden, be being apparently in his usual health an hour or so before his death. His remains will be

sent to Cincinnati for burial Au Ex Congressman Dead. PHILADELPHIA, April 27.—Hon. John Robbins, ex-member of congress, died in this city to day of congestion of the lungs, aged seventy-two years. Ir is a well ascertained physiological fact that the origin of most of the illathat affl ct humanity is a deranged condition of the ali-mentary canal. The bowels become consti-pated and sluggish, and thence arises a train of painful and distressing maladies. As a preventive and cure there is no remedy so safe and sure as Dr. Tutt's liver pills.

A PROMINENT PHYSICIAN. ROCKDALE TEXAS, Jan. 10th, 1879.

MR. J. C. RICHARDSON, St. Louis. My Dear Sir Selfano in Comiral Texas, in fact I may say I introduced it in Milam County. It has given uniformly good satisfaction, and its merits are constantly recommending it from citizen to citizen, in the speedy and effective cure of Intermittent Fever, (Fever and Agua.) and Fevers of Malarial Origin. I am always pleased to sell Clifford's Febrings on account of its efficiency, knowing it will not disappoint my customers, and being so palatable makes it the most pleasant remedy for the cure of Chills and Fever.

J. C. RICHARDSON, Sif :—Two of my children were severely attacked with Chills and Fever. I called our Family Physician who attended them without success, foolishly tried ague Pads, also without the slightest effect. When through the influence of Mr. Ballard we were induced to try your Clifford's Fobriuge the effect was wonderful. The children did not have a Chill after taking the first does and are now entirely well. Would not be without the remedy on any account. Yours, etc., GEO. WRIGHT.

TREASURY DEPARTMENT, Omce of Internal Revenue, Washington, D.C., January 28, 1880.

Messre LAWRENCE & BARTIN, 111 Madison street, Chicago, Ili—Genilemen 1 I nave received "a certified formula," giving the ingredients and relative proportions used in the manufacture of an article with hyoft advertise ared self under the name of "TOLU, HOCK AND BYE." This compound, according to your formula, in the opinion of this office, would have a sufficient quantity of the BALSAM OF TOLU to give it all the advantages ascribed to this article in pectoral complaints, while the Whisky and the Syrup constitute an emulsion rendering the compound an agreeable remedy to the patient. In the opinion of tals office, an article compounded according to this formula, may properly be classed as a medicinal preparation under the provisions of Schedule A, following Section 3487, United States Revised Statutes, and when so stamped may be sold by Druggists, Apothecaries and other persons, without rendering them liable to pay special tax as liquor dealers. Yours respectfully.
